Using same review for all Zup games.

Main reason to get, make your profile look better with the many differently designed achievements.

Very cheap and would highly recommend when in bundle.

Loads of achievements for the achievement hunters.

Can be fun to play but games are not very long because of easy puzzles.

Heard that there is a Zup 5 in greenlight.

If they can make some original achievements fair enough but as a steam user that wishes we have something like a gamerscore like with the Xbox, games like this would not exist on steam.

(but would probs still get if very cheap)

. Paradox, do you even know what patch updates are anymore?. "Do not play this game, Victor. This is sad trash.". Great start into early access! I played a bunch when I got it through a drm-free bundle a few weeks ago. Super stoked it got on Steam so quickly!

My only complaint is it just needs a little optimizing, runs great on my new mac but I tried it out on an older one and it was a little slow, still playable though.

Looking forward to franchises!. Fun game for $0.99, neat puzzles. Definitely reccomend.

A solid game for the approximately 2 UKP I paid for it. However a word of caution: if you suffer for motion-sickness the fixed perspective on the ship and spinning landscape will eventually start making you feel nauseous. This is why, unfortunately, I can only comment on the first level.. It's definetely one of best VR games with bow mechanics. Headshots are juicy. The setting is a bit silly, but it's matter of flavour I guess.. Better than Jump Force :\/. Magical Flying Lolis With Laser Guns: The Movie: The Game.. Excellent doujin horizontal shmup with beautiful graphics,extremely detailed sprites and flawless controls.. The DLC adds to the base game. If you like GC3 it's a must buy.
